Inverell

Inverell and surrounds supply 80% of the world's sapphires, hence the name "Sapphire City". It's the ideal place to try your hand at fossicking and to see how precious stones are processed.

Great walking tracks, reserves and dams provide plenty of outdoor attractions. Stretch your legs in Goonowigall State Conservation Area, a unique wilderness area that supports 120 species of native birds. Explore the marked walking trails and look out for Thunderbolts Rock and the remains of a Chinese settlement.

The National Transport Museum consists of a display of over 200 exhibits. Cars, trucks, fire engines, motorcycles, bicycles, pedal cars, scooters and numerous models and transport related items make up the ever changing display. As well as a huge variety of the more popular makes of vehicles, there are some rare

and exotic creations on display such as a 1906 Dayton which is believed to be the only working one left worldwide and two of the carriages from the Sydney Monorail. The museum also houses a display of antique dolls and wedding dresses, as well as a decorated cake display.

Lightning Ridge

Lightning Ridge is home of the unique Black Opal:

Such is the allure of the Ridge that many who initially planned to stay a day or so as part of a larger travel experience, end up staying a lifetime without being able to pinpoint the exact reason.

At the Ridge, one can experience underground sculptures, bottle-houses, antique lamps, castles, astronomy monuments, unique gardens, hills named 'Lunatic', 'Pig' and 'Bald', a pub crawl to 'The Pub in the Scrub', 'The Glengarry Hilton' and 'Sheepyard Flat', and even tour underground mines.

And how do you find all these things? Look out for a coloured car door!

Make sense? ...probably not, but it will when you visit the Ridge!
